

# CAN YOU IDENTIFY THESE INVASIVE SPECIES?

**Want to help prevent new, high priority invasive weeds from spreading into the places you live and love—  
*all while enjoying your favorite outdoor activities?***

New invasive species can spread quickly, damaging intact natural areas. Fortunately, hikers, bikers, walkers and outdoor enthusiasts can prevent these pioneer invaders from gaining a foothold.

Come learn how to spot and report these new invasive species before they gain a foothold.

## Become a Multnomah Weed Watcher

This FREE training is for anyone interested in protecting Oregon's landscape from the spread of new invasive weeds:

- Learn to identify high priority weeds and how to report them.
- View live and preserved specimens;
- Discover how these invaders spread, and dominate new areas.

**6:30-8:30 p.m.  
THURSDAY, MAY 14**

OR

**10 a.m. to noon  
FRIDAY, MAY 15**

EMSWCD, 5211 N Williams Ave.,  
Portland, OR 97217
