EMSWCD 1st Quarter Progress Report for FY 2018-19

This report describes progress made on the EMSWCD FY2018-19 Annual Work Plan and budget through the first quarter of the financial year (July through September 2018).

For this report, substantive progress is measured and described against the activities identified in the “annual project activities and deliverables” tables given in the FY2018-19 Annual Work Plan. For reporting purposes, each of the identified activities was given a status indicator, as of the end of the third quarter, as follows:

- **Completed**;
- **In progress**;
- **Planned for the reporting period, but no progress made during the reporting period** because it has not been started or progress was made previously but no additional progress was made during the current reporting period; or
- **Not planned for the reporting period and no progress made during the reporting period**.

A summary of the status of the activities for each of EMSWCD’s programmatic areas at the end of the first quarter is given in the table and chart below. The details regarding progress are given for each of EMSWCD’s programs in the tables on the subsequent pages.

In total:

- 168 activities were planned to be undertaken within the first quarter of the fiscal year.
- Of these, 155 (92%) have either been completed or are in progress as planned.
- 13 (8%) have not been undertaken as planned.

**Significant accomplishments this quarter include:**

- Hired and onboarded new CFO.
- Urban Lands met with Gresham, Wood Village, and Troutdale to discuss possible partnerships and improving access to programs.
- Erosion Solutions project on 60-acre nursery property completed (estimated reduction of 500 tons of sediment/year in Johnson Creek).
- Full Cellar Farm was selected as the first HIP graduate to lease land from EMSWCD and will begin farming Mainstem Farm in 2019.
- Closed on the fee acquisition of a 20-acre farm property on Gordon Creek Road.
- Board approved changes to the Partners in Conservation Program, all PIC grants will be for up to $100,000 and up to 2 years duration.

**Significant activities not accomplished the quarter include:**

- Weed control work on spurge laurel, ivy and old man’s beard sites delayed in favor of more urgent post Eagle Creek fire weed control.
- No beneficial insects or pollinators workshops took place in the quarter because none were requested.
- Plans to conduct 1-2 case studies on past grantees has been postponed due to additional work load on the Grants Manager.
- Updating the Land Legacy natural areas/access to nature website pages on the EMSWCD website was postponed due to work load.

### Quarterly Status of FY18-19 Annual Plan Activities

- **Completed**
- **In Progress**
- **No Progress, but planned**
- **Not planned during period, no progress**
Expenditures for FY18-19 to date are shown in the table directly below. After the first quarter, a total of 23.3% of the operational budget has been expended. Rural Lands (27.7%), Finance & Operations (23.8%) and Conservation Legacy (21.7%) are the closest in terms of percent spending relative to the percent of the fiscal year elapsed (25%). These are followed by Urban Lands (19.0%) and Headwaters (18.9%) which have more seasonal expenditures and/or rely more on partners and other external entities for their work so expenditures are not spread evenly through the year. The Headwaters capital improvement expenditures for the year are planned to take place in the spring and summer of 2019.

The Rural Lands operational expenditure is slightly higher than the projected annual budget due mainly to high contractor costs associated with weed control work on the areas burned by the Eagle Creek fire, as well as StreamCare site maintenance which is strongly seasonal in nature.

Progress made against the activities identified in the “annual project activities and deliverables” tables given in the FY2018-19 Annual Work Plan, follows below.

---

1 Includes supplemental budget amendment (Resolution No. 2018-10-02) for Rural Lands USFS ($14,750)
2 Includes supplemental budget amendment (Resolution No. 2018-09-01) adding $10,000 for LEPC to the Partners Grants Management Budget
# Finance and Operations

## FINANCE & OPERATIONS

### Program Goals:
1. Promote equity and embrace the diversity of humanity of our workplace.
2. Recruit, develop and retain a professional, diverse and responsive workforce.
3. Increase the percentage of residents who know about EMSWCD.
4. Increase the percentage of residents who understand what EMSWCD does.
5. Ensure that residents know how to access EMSWCD services.
6. Ensure that residents have a positive perception of EMSWCD.

# Urban Lands

### URBAN LANDS

**Strategic Goals:**
1. Protect and improve water quality and quantity.
2. Protect and improve soil quality and quantity.
3. Protect and improve natural habitats.

**Program Goals:**
1. Decrease urban stormwater runoff by reducing impervious surfaces and retaining stormwater on-sites.
2. Reduce the use of synthetic landscaping chemicals and pesticides.
3. Reduce the area of lawn and other high-water-use ornamental plants.
4. Increase the use of urban landscape water conservation methods and tools.
5. Increase the number of native plants, and area of green infrastructure within the urban growth boundary.
6. Increase public understanding of water quality, water quantity and natural habitat conservation concerns and inspire action to address those concerns.

# Rural Lands

## RURAL LANDS

### Strategic Goals:
1. Protect and improve water quality and quantity.
2. Protect and improve soil quality and quantity.
3. Protect and improve natural habitats.
4. Increase the sustainability of Agriculture

### Program Goals:
1. Decrease erosion from working lands in the rural part of the district to prevent sediment and bacteria from entering waterways.
2. Improve the efficiency of irrigation on working lands.
3. Increase stream shading to protect water temperature and improve riparian habitat in priority watersheds.
4. Understand water quality baseline levels in priority watersheds and trends over time.
5. Reduce the impacts of ecosystem altering weeds species on natural habitats in the rural part of the district, focusing on protecting high value native forest and riparian areas.
6. Limit invasive species pressure on natural regeneration of native forest in areas burnt by the 2017 Eagle Creek fire.
7. Increase awareness among landowners and managers about protecting and improving water quality, water quantity, soil health, riparian health, natural habitats, and reducing populations of invasive weeds.

Conservation Legacy

### HEADWATERS

#### Strategic Goals:
1. Protect and improve water quality and quantity.  
2. Protect and improve soil quality and quantity.  
3. Protect and improve natural habitats.  
4. Protect agricultural lands.  
5. Increase the sustainability of Agriculture.

#### Program Goals:
1. Maintain and improve the natural resources at Headwaters Farm to support sustainable agriculture.  
2. Facilitate the establishment of viable new farm businesses, that are good stewards of land.  
3. Increase the visibility of conservation farming practices.  
4. Headwaters Farm facilities, infrastructure and equipment supports the HIP program and EMSWCD's mission.

### Annual Activities and Deliverables

<table>
<thead>
<tr>
<th>Natural Resources Management</th>
<th>Timeframe</th>
<th>1st QUARTER COMMENTS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Plan, implement and monitor a suite of practices that promote good stewardship through a conservation planning approach, including: organic practices, cover cropping, nutrient management, reduced and appropriately timed tillage, drip irrigation, compaction alleviation, among others.</td>
<td>In progress</td>
<td>X</td>
</tr>
</tbody>
</table>

#### Soil Health Improvements

<table>
<thead>
<tr>
<th>Soil samples taken for all fields in October - both in production or not - to help determine fertility needs and document change over time.</th>
<th>Not planned</th>

### LAND LEGACY

#### Strategic Goals:
1. Protect and improve water quality and quantity.
2. Protect and improve soil quality and quantity.
3. Protect and improve natural habitats.
4. Protect agricultural lands.
5. Increase the sustainability of Agriculture.
6. Provide equitable access to nature.

#### Program Goals:
1. Protect agricultural land east of the Urban Growth Boundary, excluding the urban reserve.
2. Help partners protect one to two urban farms and community gardens projects through financial and technical assistance.
3. Protect priority habitats in the district by helping partners protect areas identified in conservation-related plans.
4. Assist partners establish new parks and natural areas in underserved communities.

GRANTS

**Strategic Goals:**
1. Protect and improve water quality and quantity.  
2. Protect and improve soil quality and quantity.  
3. Protect and improve natural habitats.  
4. Protect agricultural lands.  
5. Increase the sustainability of Agriculture.  
6. Provide equitable access to nature.

**Program Goals:**
1. Complement other EMSWCD program efforts in water quality, soil health, habitat restoration and sustainable agriculture.  
2. Increase environmental literacy of EMSWCD residents.  
3. Increase capacity and strengthen organizational structures needed to advance equitable conservation outcomes.  
4. Establish and support sustainable school and community gardens throughout the urban areas of the EMSWCD service area.  
5. Increase conservation benefits for communities and populations experiencing disparities in environmental health, environmental education, and natural amenities.

### Annual Activities and Deliverables
